Dongxu Wu

wu.6734@osu.edu | alfreddongxuwu.github.io | *Last updated on Nov. 10, 2026*

Research Interests

Semantics and Pragmatics, Computational Linguistics, Psycholinguistics

Education

The Ohio State University Jan 2025 – May 2027
B.A. with Research Distinction in Linguistics GPA: 4.00
Thesis: When lexicalized presupposition meets implicature: A causal, probabilistic model for *manage* and *fail*
Supervisor: Prof. Prerna Nadathur

Beijing Foreign Studies University Sep 2023 – Jun 2024
Major: Translation and Interpreting (transferred)

LSA Summer Institute Jul 2025 – Aug 2025
University of Oregon

Publications

Dongxu Wu and Prerna Nadathur. **When lexicalized presupposition meets implicature: A causal, probabilistic model for *manage* and *fail***. Abstract in preparation, *Semantics and Linguistic Theory (SALT 37)*. [paper] [code]

Dongxu Wu, Sara Court, and Micha Elsner. **Are these programmers ripe enough to eat? Evaluating how LLMs handle lexical knowledge conflicts in translation**. Under review, *ACL Rolling Review* (October 2026 cycle). [paper] [code]

Dongxu Wu. **Can semantic similarity capture headedness distributions? Evidence from Chinese disyllabic compounds**. To appear in *Proceedings of the 38th North American Conference on Chinese Linguistics (NACCL-38)*. [paper]

Dongxu Wu. **Mandarin–English code-switching in large language models**. manuscript in preparation.

Presentations

Dongxu Wu and Prerna Nadathur. **When lexicalized presupposition meets implicature: A causal, probabilistic model for *manage* and *fail***. Talk at *the SemPrag Working Group*, The Ohio State University (Oct 19, 2026).

Dongxu Wu, Sara Court, and Micha Elsner. **Are these programmers ripe enough to eat? Evaluating how LLMs handle lexical knowledge conflicts in translation**. Talk at *Clippers (Computational Linguistics Discussion Group)*, The Ohio State University (Sep 29, 2026).

Dongxu Wu. **Can semantic similarity capture headedness distributions? Evidence from Chinese disyllabic compounds**. Talk at *the 38th North American Conference on Chinese Linguistics (NACCL-38)*, George Washington University (May 10, 2026).

Dongxu Wu. **Attempt inferences from *manage* and *fail***. Talk at *the Undergraduate Linguistics Research Seminar*, The Ohio State University (Apr 28, 2026).

Dongxu Wu. **Can semantic similarity capture headedness distributions? Evidence from Chinese disyllabic compounds**. Talk at *the 14th Central Kentucky Linguistics Conference (CKLiC)*, University of Kentucky (Feb 21, 2026).

Awards

Undergraduate Research Scholarship ($5,200), The Ohio State University 2026

International Research Grant ($2,000), The Ohio State University 2026

China National Scholarship ($1,500), Ministry of Education, China 2024

Outstanding Student Award, Beijing Foreign Studies University 2024

Coursework

Graduate-level coursework at OSU

Semantic Theory I
Syntactic Theory I
Phonological Theory I
Morphological Theory
Computational Linguistics I & II
Psycholinguistics
Languages in Contact
Technical Tools for Linguists
Seminar in Psycholing: Research Methods in Experimental Language Science (audited)

Coursework at LSA Summer Institute

Information-Theoretic Linguistics
Introduction to Quantitative Morphology
Computational Semantic Typology
Modeling Linguistic Networks
Computational Models of Generalization and Item-Specificity

Skills

Language: Mandarin Chinese (native), English (fluent)

Programming & Tools: Python, R, Git, LaTeX, jsPsych, HTML/CSS, Prolific, Qualtrics, Praat
